## THE PROBLEM

OIL REMOVED FROM  
TRADITIONAL DRAIN  
AND FILL SERVICE.

AS MUCH AS 20%  
CAN BE LEFT BEHIND.

- Excessive engine wear
- Deposit buildup
- Low compression
- Increased oil consumption
- Higher operating temperatures
- Decreased fuel efficiency
- Engine component breakdown or failure
- Failed emission tests
- Higher operating and servicing costs

## THE SOLUTION

A Wynn's *Supreme™ Engine Cleaning Service* helps keep your vehicle running safely and reliably.

- **Wynn's® Internal Engine Cleaner** is first pumped through your engine to dissolve sludge and varnish, and to help remove particulates and wear debris.
- **Wynn's Supreme Engine Cleaning System** clears away loose deposits and old oil from most lubricated engine components, reducing the chance of contaminating the new oil.
- **Wynn's Supreme +Plus+™ Oil Treatment** is added to the new oil, prolonging oil life and enhancing oil performance.

A cleaner, better running engine gives you:

- Peak engine performance
- Longer engine life
- Fewer costly repairs
- Reduced exhaust emissions
- Improved gas mileage
