

# FUEL

## V.I.C.™ (VALVE, INJECTOR & COMBUSTION CHAMBER CLEANER)

A powerful and versatile fuel system cleaner, Wynn's® V.I.C.™ can be introduced through a manifold vacuum source using the TN15000 tool to target intake valves, ports, and combustion chambers; with ZW04000 and ZW31500 to add service to the throttle body; or with ZW04000 and ZW04001 directly through the fuel rail to blast hard, stubborn deposits from fuel injectors and combustion chambers.

- ✓ Multiple Modes of Service to Target Specific Fuel System Components
- ✓ Removes Carbon Deposits Throughout the Intake/Induction System
- ✓ Corrects Hesitation and Rough Idle
- ✓ Improves Fuel Economy
- ✓ Decreases Emissions
- ✓ Restores Proper Air/Fuel Mixture
- ✓ Restores Injector Fuel Spray Pattern

### SPECIFICATIONS:

**Product No:** ZW61510

**Net Weight:** 16 FL OZ (473 mL)

**Case Quantity:** 12 Each
