

Ozone Heat, Ventilation And Air Conditioning (HVAC) Cleaning System Aircomatic III™

Breathe Easy, Breathe Safe by Purifying a Vehicle's Interior Environment

Odors make for an unpleasant ride, can be unhealthy and may influence resale value. Wynn's Aircomatic III™ HVAC Cleaning System safely and quickly eliminates offensive odors in the vehicle interior and air conditioning system. Combining the AIRCO-CLEAN™ HVAC Treatment with the AIR PURIFIER Ozone purification process improves interior vehicle air quality. Don't mask it, fight it! A compact, portable, lightweight unit gets the toughest, smelliest job done.

- › **Freshens Not Only the HVAC System, but the Entire Vehicle Interior Environment**
- › **Utilizes Advanced Ultrasonic Technology to Dramatically Improve Odor Elimination—the Ozone Service (Short 15 Min, Long 30 Min) Reacts with the O² Molecules to Create O³ Molecules that Kill Bacteria, Germs and Mold**
- › **Removes Tobacco, Food, Pet and Many Other Odors**
- › **Helps Reduce Carpet, Upholstery and Headliner Odors**
- › **Complete Service is Performed in About 25 Minutes**
- › **Ideal as a Service Department Offering and for Reconditioning Used Cars**

NOTE: For best results, these two chemicals are required for the machine to operate — Wynn's Airco-Clean (Product #30208) and Wynn's Air Purifier (Product #A1601).

PRODUCT NUMBER: ZW03003

MACHINE WEIGHT:
Approx. 5.5 lbs (2.5 Kg)

DIMENSIONS:
9"H x 7" W x 12" D
