

TRANSMISSION

AUTOMATIC TRANSMISSION TREATMENT

Wynn's® Automatic Transmission Treatment revitalizes seals and o-rings, helps prevent corrosion and foaming and increases lubricity leading to smooth shifting and extended transmission life.

Automatic Transmission Treatment is designed to be used with all non-synthetic automatic transmission fluids (except CVT and DCT) to enhance and extend fluid effectiveness and life.

FEATURES AND BENEFITS:

- ✓ Revitalizes Seals and O-Rings
- ✓ Help Stop & Prevent Seal Leaks
- ✓ Replenishes Depleted Additives, Extending Transmission Life
- ✓ Automatic Transmission Treatment Can be Added to the Transmission Service or as a Mid-Interval Booster
- ✓ Compatible with All Non-Synthetic Automatic Transmission Fluids (Excluding CVT and DCT)

SPECIFICATIONS:

Product No: ZW64506

Weight: 11 OZ (325 mL)

Case Quantity: 24 Each
