

COOLANT

UNIVERSAL COOLING SYSTEM TREATMENT

Wynn's® Universal Cooling System Treatment provides the vehicle's coolant system with protecting inhibitors. The cooling system treatment was designed to minimize harmful hot-surface scaling with the incorporation of highly effective additives. This valuable formula is compatible with conventional, long-life and hybrid antifreeze/coolant formulas.

FEATURES AND BENEFITS:

- ✓ Protects Aluminum and All Metal Cooling System Parts Against Corrosion
- ✓ 100% Organic Acid Technology (OAT)
- ✓ Compatible with All Coolants
- ✓ Contains No Amines, Borate, Nitrate, nitrite, Phosphate or Silicate
- ✓ Guards the Cooling System Against Cavitation-Erosion
- ✓ Prevents Heat Transfer Fouling Due to Minor Oil Leakage

SPECIFICATIONS:

Product No: ZWA4601
Weight: 11 OZ (325 mL)
Case Quantity: 24 Each
