## PREMIUM AT FLUID

Advances in automotive technology extend to every component of a vehicle's drive train and transmissions are no exception. Today's automatic transmissions are designed to maximize power without sacrificing performance or fuel economy.

A high-quality transmission fluid is the essential component to ensuring transmissions function at peak performance. Wynn's® Premium Automatic Transmission Fluid provides hydraulic pressure and the right amount of friction control while protecting clutch plates and metal surfaces.

Wynn's® Premium AT Fluid is specially formulated for optimal performance in a wide variety of vehicles for maximum coverage of ultra low, low, and high viscosity applications.
